Roofing

We provide high-quality, genuine COLORSTEEL® and Marley products for your home's roof. Both are trusted to perform in New Zealand's challenging conditions and are backed by industry-leading warranties, giving you confidence your home will stand the test of time.

Roofing Profile

Roofing profiles are supplied by Roofing Industries, a 100% New Zealand owned and operated company that takes pride in manufacturing and supplying a wide range of residential roofing systems that are innovative, tested, and designed to withstand New Zealand's challenging climatic conditions. Roofing Industries uses quality, locally manufactured raw materials to ensure a superior product.

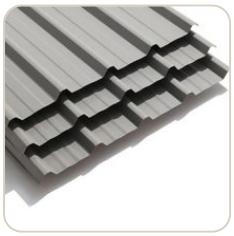
STANDARD

Corrugate

A timeless roofing choice that is durable, cost-effective, and built to last in NZ conditions.

- Iconic profile that stands the test of time
- Proven performance in our climate
- Backed by local expertise and full technical support

5 Rib



A modern roofing choice with clean lines and bold shadowing that is engineered for durability and performance in NZ conditions.

- Contemporary look with refined geometric lines that add visual depth
- Works efficiently even at low roof pitches
- Built to last with proven technical performance
- Backed by local expertise and full technical support

UPGRADES

True Oak Corrugate

POA

A stronger roofing choice with bold, rounded curves and timeless character that is designed for durability and performance in NZ conditions.

- Strongest corrugate profile available for superior strength
- Deep shadow lines create classic, distinctive styling
- Performs well even at low roof pitches
- Backed by local expertise and full technical support

Roof Colour

Inspired by New Zealand, loved by New Zealanders. COLORSTEEL® colours are a blend of classic, timeless shades and modern, on-trend tones.

Kitchen

We know the kitchen is one of the most important spaces in your new home, and there's no shortage of design choices to make. Each of our kitchen plans is professionally designed and ready to go, but if you'd like something more personal, you can create a design entirely your own with the help of a specialist kitchen designer.

Kitchen Cabinetry

Founded in 1973 in the heart of Auckland, Peter Hay Kitchens is one of the oldest and best-known kitchen brands in New Zealand. For more than 50 years, Peter Hay has continued to bring "affordable style", transforming kitchens from humble backrooms into open plan "heart of the home" living spaces. Their successful history has included many significant achievements, Trusted Brand Awards, The Best Of Best Awards and likely the most significant achievement, the successful install of a world-first production line in 2016 helping them keep up with the capacity of kitchens they produce.

Heating

Heat Pump

INCLUDED

MITSUBISHI HEAVY INDUSTRIES

Mitsubishi Heavy Industries - Avanti 5kW heat pump installed for heating and cooling

What else is included

In addition to the choices on the previous pages, your home includes the following as standard.

PLANS, CONSENTS & DOCUMENTATION

- ✓ Working Drawings
  LBP Designer produced full working drawings - house only
- ✓ Building Consent Fees
  Building consent fees - house only
- ✓ Code Compliance Certificate (CCC)
  Code Compliance Certificate obtained on completion - house only
- ✓ Electrical Certificate of Compliance (CoC)
  Electrical Certificate of Compliance issued by a licensed electrician - house only
- ✓ Guarantees & Warranties
  All applicable manufacturer warranties and builder guarantees provided on completion

STRUCTURE & FRAMING

- ✓ Building Wrap
  Thermakraft® building wrap and tapes installed to all exterior walls
  A high-performance breather membrane that provides a critical secondary weather barrier, reducing air infiltration and improving the thermal performance of the wall system
- ✓ Floor Framing
  H1.2 treated joist framing including particle board flooring substrate, 3604 technical standard
- ✓ Wall Framing
  H1.2 treated all wall framing timber fitted and fixed as per council plans, including pre-nailed frames, 3604 technical standard
- ✓ Bracing Plywood
  H3.1 plywood 12mm over full house structure to increase bracing
- ✓ Roof Trusses
  H1.2 treated, engineer-designed, gang-nailed roof trusses to suit plan and site requirements, 3604 technical standard

INSULATION

- ✓ Ceiling Insulation
  Pink® Superbatts® R7.0 ceiling insulation
  High-performance Pink® Superbatts® deliver an R7.0 rating, exceeding the NZ Building Code minimum for most climate zones to keep your home warm in winter and cool in summer
- ✓ Wall Insulation
  Pink® Batts® Ultra® R2.6 wall insulation
  Pink® Batts® Ultra® provide a proven R2.6 thermal and acoustic barrier in all exterior walls, helping maintain a comfortable interior temperature year-round
- ✓ Underfloor Insulation
  EXPOL rigid polystyrene underfloor insulation panels
  EXPOL underfloor insulation boards are a lightweight, moisture-resistant solution that significantly reduces heat loss through the floor, improving overall home energy efficiency

ROOFING

- ✓ Roof Underlay, Screws & Flashings
  Covertek 215 self-supporting roof underlay, roofing screws, and all flashings and barge caps
- ✓ Soffits
  Fibre-cement soffit/eaves linings

CLADDING

- ✓ Exterior Walls - Paint
  Wattyl Solaguard. 2 coats Wattyl Forestwood Aquatech
  A single standard colour

WINDOWS AND DOORS

- ✓ Door Handles & Locks
  Kanso colour-matched exterior handle and lock set

INTERIOR LININGS

- Ceilings
  GIB® 10mm standard plasterboard
- Internal Walls
  GIB® 10mm standard plasterboard
- GIB Aqualine® (Wet Areas)
  GIB Aqualine® water-resistant linings to bathrooms
  GIB Aqualine® features a water-resistant core that resists steam and moisture penetration. It is New Zealand's number-one tiling substrate and its fibreglass-reinforced core provides excellent strength and stability behind tiles
- GIB Braceline® (Structural Bracing)
  GIB Braceline® bracing sheets installed where specified on plans
  GIB Braceline® is a high-performance bracing plasterboard for light timber-framed buildings. It provides effective wall bracing while also reducing sound transmission between rooms

INTERIOR FINISHES

- Plastering & Stopping
  GIB plaster square stopped and sealed to all interior walls and ceilings, ready for painting. Grade 4 finish
- Skirting Boards
  60 x 10mm pine skirting boards
- Architraves
  40mm x 10mm pine architraves to all door and window openings
- Interior Walls - Paint
  Wattyl paint. Primer coat and 2 top coats. Any colour
  Wattyl interior paint applied to all walls and ceilings throughout the home

- Wardrobe Doors
  MDF pre-primed flush panel interior doors with pine jambs and hinged door hardware. Wardrobe doors hinged or sliding as per plan, with Robemaker hardware to sliding doors
- Door Stops
  Interior door stops fitted
- Smoke Alarms
  Photoelectric interconnected smoke alarms installed to meet NZ Building Code requirements
- Manhole / Access Hatch
  Framed manhole / ceiling access if required during the design process

KITCHEN

- Cutlery Tray
  In-drawer cutlery tray insert. White colour

BATHROOM

- Bathroom Mirror
  900 × 750mm frameless bathroom mirror
- Bathroom Extractor Fan
  Energy-efficient exhaust fan installed to bathroom and ensuite as required by NZ Building Code

PLUMBING & ELECTRICAL

- Electrical Installation
  Full electrical installation including LED downlights, Vynco switches & USB outlets, switchboard, and exterior lights
- Electrical Installation Ducting
  Ducting to switchboard for mains cable
- TV & Data Points
  TV aerial point and data / ethernet outlets installed as per plan
- Plumbing Installation
  Full internal plumbing including an exterior tap, lead-free fittings throughout
- Dishwasher Plumbing & Wiring
  Hot and cold water connections and dedicated electrical circuit provided for dishwasher installation

What's not included

PLANS, CONSENTS & DOCUMENTATION

- × Resource consent
  Resource consent applications and associated fees if required for your site (e.g., for non-complying activities or district plan rules)
- × Consents
  On site consent for site and services
- × Geotechnical / site-specific engineering
  Site-specific geotechnical investigation, soil testing, or specialist engineering reports. Site investigations, consents, reports
- × Survey & title fees
  Land surveys, title searches, or legal fees related to the property

INTERIOR FINISHES

- × Hanging rods and internal shelving to wardrobes

FURNITURE & DÉCOR

- × Window treatments
  Curtains, blinds, shutters, and associated tracks or hardware
- × Furniture
  All furniture including beds, sofas, tables, chairs, and storage units unless otherwise stated as an inclusion
- × Soft furnishings & décor
  Cushions, rugs, artwork, mirrors (beyond the standard bathroom mirror), and all decorative items

APPLIANCES

- × Refrigerator / freezer
  Fridge and freezer are not supplied
- × Washing machine & dryer
  Laundry appliances are not supplied
- × Dishwasher
  Dishwasher appliance is not supplied
- × Microwave
  Microwave oven is not supplied

PLUMBING & ELECTRICAL

- × Mains power connection
  Connection of the home to the mains electrical supply from the boundary or meter box. The home is wired and ready for connection; the line connection itself is the customer's responsibility
- × Water supply connection
  Connection to mains water supply, water tank, or pump system from the boundary to the home
- × Wastewater & sewage connection
  Connection to mains sewage, septic tank, or effluent disposal system. Including any septic tank design, supply, and installation
- × Stormwater connection
  Stormwater drainage from downpipes to an approved disposal point
- × Gas supply connection
  LPG bottle/cylinder supply and regulator, or natural gas connection from the boundary. The home is plumbed and ready; gas supply is the customer's responsibility
- × Internet, phone & fibre
  Any broadband, fibre, phone line, or Sky TV connection and associated installation fees

SITE & LAND PREPARATION

- × Site visits
  Physical site visits
- × Site earthworks & levelling
  Clearing, levelling, or grading of the land prior to or following installation
- × Foundations & piles
  Physical foundation piles, concrete slab, or sub-floor structure at the site
- × Retaining walls
  Any retaining walls, cut-and-fill works, or erosion control required on site
- × Delivery & transportation
  Transportation of the home to the site and any cranage, machinery, or access works required for placement

OUTDOOR & EXTERIOR

× Decks, verandahs & outdoor stairs
External decks, verandahs, pergolas, and entry stairs unless noted in inclusions

× Driveway & paths
Driveway, footpaths, concrete pads, and hardstanding areas

× Landscaping & gardens
Lawns, planting, garden beds, topsoil, bark, irrigation, and any other landscaping works

× Fencing & gates
Boundary or privacy fencing, garden gates, and associated posts or foundations

× Garage, carport & shed
Standalone garages, carports, or sheds

× Letterbox
Letterbox and house number signage

GENERAL

× Any item not listed in the Inclusions Schedule
Only items specifically listed in your signed Inclusions Schedule are covered. If you are unsure whether something is included, please ask before signing

× Plan customisation
Any changes or upgrades to the standard plan that are significant enough to require a custom concept plan

× Material upgrades & variations
Any upgrade to a standard specification (e.g., premium cladding, stone benchtops, upgraded appliances) is available at an additional cost and must be agreed in writing

× Damage caused by third parties or site conditions
Damage resulting from site conditions, weather events, or third-party works after delivery is not covered
